

Pressure pump 1000Bar

Selection	Value
ID number	
Ex Sone	1
Max Working pressure	1000 bar
Max Gross weight	30 kg
Max Flow	2.7 l / min
Pump Type	SHS 10-6-080W
Type	
Volume	

We can offer air-operated thick pumps from most manufacturers

SHS Series 10-6-080W – Pressure pump in Frame

10-6 Series Liquid Pumps and D-6 Series Non-Lubricated Liquid Pumps

The largest of the SC "standard" series pumps with a 7" diameter air cylinder and a 2 1/2" stroke. 13 gears available with the highest gear ratio capable of hydraulic pressures of up to 65,000 psig (4480 bar).

Usually used where very high pressures are required at low currents.

Applications include test and burst testing for extremely high pressures, torque wrench activation, bolt tightening, fly jacks, filter presses, clamping, holding, metal forming.

10-6 is widely used by offshore oil companies in many applications due to the pump's inherent robustness and reliability. Available in ATEX design

Can be delivered in a robust framework made of stainless steel. All according to your needs
