

# WS019 - Water in Oil measurement

Selection	Value
ID number	
Ex Sone	
Max Gross weight	0.5 kg
Surgical fluid	Mineral oil
Voltage	9 V DC
Type	WS019
Viscosity	

## Pall WS Series

The portable water sensor in the Pall WS series is an ideal, affordable method for measuring dissolved water content in hydraulic, lubricating and insulating fluids.

Specially designed for use in industrial environments, readings are displayed on an LCD screen and can be used as a key component in preventive maintenance of plants and machines.

Features:

- A sensing probe directly immersed in the fluid to monitor dissolved water content and temperature
- Water content output in% saturation or PPM
- Temperature in ° C or ° F
- 'Plug and play' connectivity
- Simple to operate and calibrate
- Robust housing and sensing probe designs
